

4-3-5 Ideation Method for Control-Corporeality Framework

Instructions for Quadrant Handout:

- **Initiate:** You will start with a handout specific to one of the Control-Corporeality Framework quadrants. The two arrows are layer 1, and the blue gradient is layer 2, indicating the possible “Genre” of user experience that systems in this quadrant can facilitate.
- **Create:** Spend 5 minutes independently jotting down ideas for systems that embody the characteristics of Layer 1 and Layer 2 of your quadrant.
- **Exchange & Expand:** Pass your handout to the next team member. Take another 5 minutes to review their ideas and either build upon them or add new ideas.
- **Continue:** Keep the rotation going for all four quadrants.
- **Collate & Choose:** After everyone has contributed to the ideation for all four quadrants, come together as a team to consolidate the ideas and choose one to advance the user experience with.

TEAM
1

IDEA CREATION CANVAS

(LAYER 1 & LAYER 2)

IDEA CREATION CANVAS

(LAYER 1 & LAYER 2)

High-level of
human control

In real game, using
augmented reality to support
players
team member to understand
other's intention

Use human augmentation
for training
coordination in
teamsports e.g.
turning paths
in football or
rugby

Strategy

Inter-corporal
interactions

Visualising
your member
controlling ~~others~~ when
you find ~~but~~ see that your
member not noticed.

Movement mixing: using
AR to record the movements
of different dancers, then
cut and paste parts of the
moves onto an avatar, which
can subsequently be used
to learn the choreo.

participant can choose
one player to see his
what he is

information and his perspective
