

4-3-5 Ideation Framework for Control-Corporate Framework

TEAM

2

Instructions for Quadrant Handout:

- **Initiate:** You will start with a handout specific to one of the Control-Corporeality Framework quadrants. The two arrows are layer 1, and the blue gradient is layer 2, indicating the possible "Genre" of user experience that systems in this quadrant can facilitate.
 - **Create:** Spend 5 minutes independently jotting down ideas for systems that embody the characteristics of Layer 1 and Layer 2 of your quadrant.
 - **Exchange & Expand:** Pass your handout to the next team member. Take another 5 minutes to review their ideas and either build upon them or add new ideas.
 - **Continue:** Keep the rotation going until each member has contributed to the ideation for all four quadrants.
 - **Collate & Choose:** After everyone has input on each quadrant, come together as a team to consolidate the ideas. Select one that stands out for its potential to advance the user experience within its respective quadrant.
-

QUADRANT 1

IDEA CREATION CANVAS

(LAYER 1 & LAYER 2)

High-level of
human control

Goal passing the ball:-
⇒ in a multi-user
scenario. with AI
controlled defenders
when AI defender
approaches → about
to tackle. → Pass
→ P1 long

Spirit Possession:

One player as a invis

Spirit of the other player.

when they can take turn
to control the main body
of the second player. but
without any notice

Man in the middle:

3 player: 2 remote players
1 local player

The local player tries to pretend
normal, while other two

remote players tries to mess
up the local player.

defender approaches

→ Short range
Pass from P1
to P2

→ Tackle Long
range Pass

Controlling together:

2 player: player 1 have controls
of both players

the other one has
of right hands.

Goal: achieve certain tasks
e.g., eat noodles

Chess:

teams: each player is

a big chess board.

one player controls
they want and move

physically, and take

turn to next player.

multiple player's

• estimate each other's
future action and
control other person
according to action of
anyone else

Inter-corporal
interactions

IDEA CREATION CANVAS

(LAYER 1 & LAYER 2)

Inter-corporeal
interactions

5) Every defender
approaches attacker

6) Intensity of
the increase /

Two AI using the
human bodies to fight
with each other

Fake soccer game:
The ball would move by
itself, but it will pretend
as it is hit and move
to ~~be~~ its own direction.

activate legs
the correct direction

- Experience top athletes' ability
- Playing musical instrument using coaches action
- ~~catch~~ ~~share~~
Forcefully share sights with others

Auto Dance

For new dancer, AI coach
take control their
body to teach and
practice them dancing

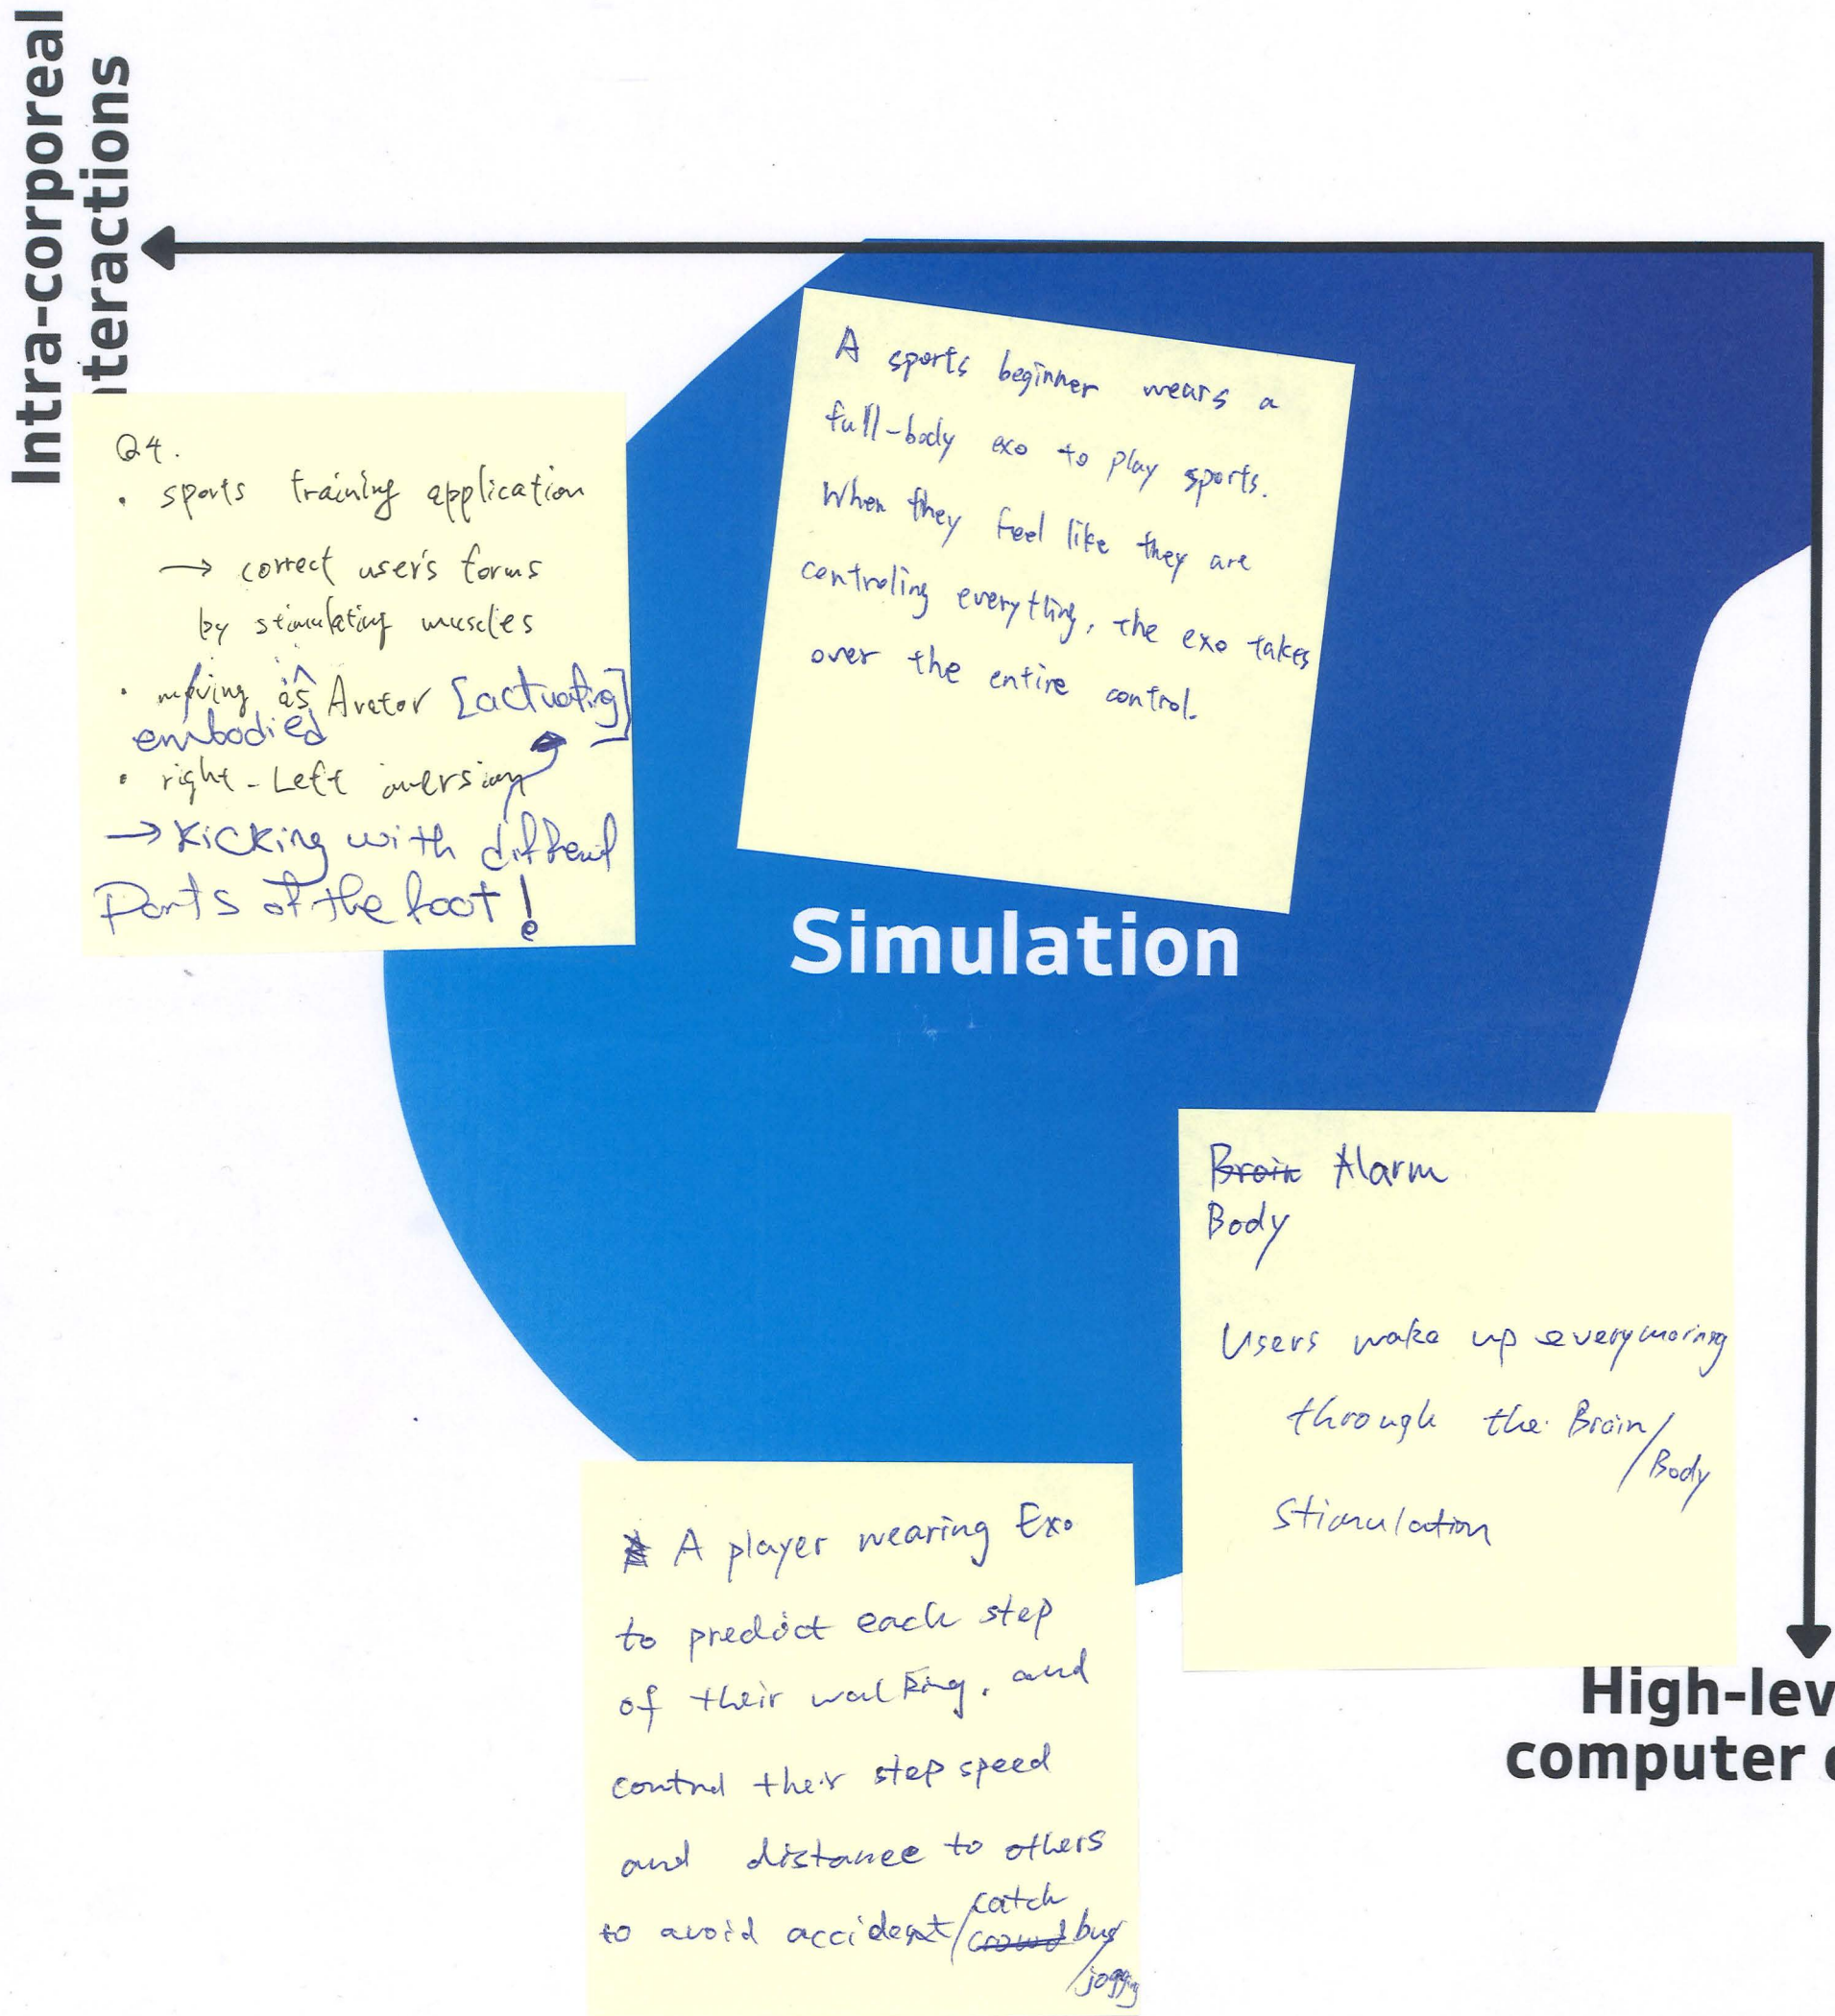

- 1)
- 2) social VR
- 3) soccer game
→ multiuser
- 4) force feedback
on legs

High-
computer control
