

4-3-5 Ideation Method for Control-Corporeality Framework

Instructions for Quadrant Handout:

- **Initiate:** You will start with a handout specific to one of the Control-Corporeality Framework quadrants. The two arrows are layer 1, and the blue gradient is layer 2, indicating the possible "Genre" of user experience that systems in this quadrant can facilitate.
- **Create:** Spend 5 minutes independently jotting down ideas for systems that embody the characteristics of Layer 1 and Layer 2 of your quadrant.
- **Exchange & Expand:** Pass your handout to the next team member. Take another 5 minutes to review their ideas and either build upon them or add new ideas.
- **Continue:** Keep the rotation going until each member has contributed to the ideation for all four quadrants.
- **Collate & Choose:** After everyone has input on each quadrant, come together as a team to consolidate the ideas. Select one that stands out for its potential to advance the user experience within its respective quadrant.
