

Quadrant 1

Exploration

help to improve balance
by using GVS

Legends of League Simu.

⇒ Players can do the series of actions to compete in one game.

Virtual Run

Run with your far-away friends using AR

AR view

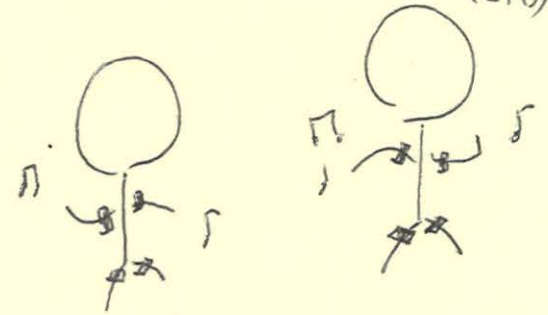

10km
07:40:11

+00:10:31 your
pace 07:30 to your
friend running

Quadrant 2.

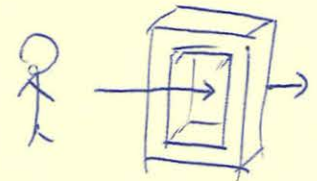

• Electrical Muscle Stimulation (EHS)

"mimic ~~game~~
dancing game"

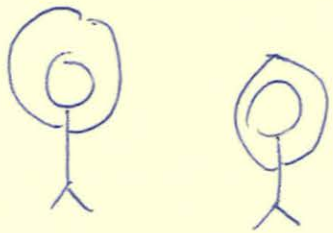

• The movements will change according to another user

A pose game where tech suggests a pose which fit the shapes.

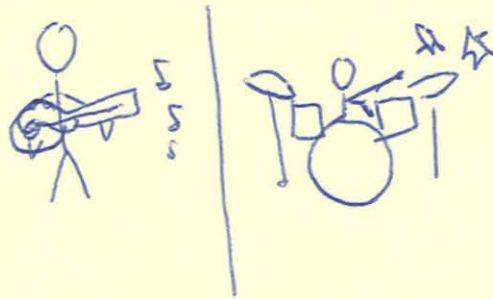

Quadrant 3 Action

Two people doing the same position to ~~pass~~ the shape go across

Remote Music Games

Location A Location B
• 2 people at different ~~location~~ loc
jamming together following computer
generated pattern

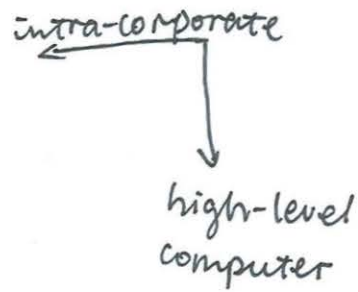

A cooking system
that can collaborate
make rice and stir-fry

Remote music learning

add
electrical muscle stimulation
which will help better learning experience
because it can be ~~in~~ real time.

Q 4: Simulation

Physical Electrical
treatment for ac puncture

or the First-Aid
device to maintain the
crushed arms and legs

First-Aid training simulation

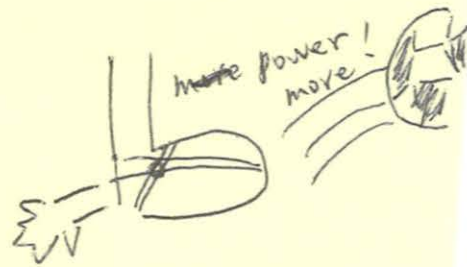

- First-aid treatment simulation where the clinician can physically interact with either virtual / physical object

• Tendon-Driven Systems add artificial ^{skills} to help ~~be~~ the work ^{be} more precise.

support system which helps the crushed part by mimic it and can ~~be~~ replace ^{the function of} the hurted body part temporarily.

If user ~~is~~ was hurt or less of energy, the system can help...

• Pneumatic Actuators

Q1 Exploration

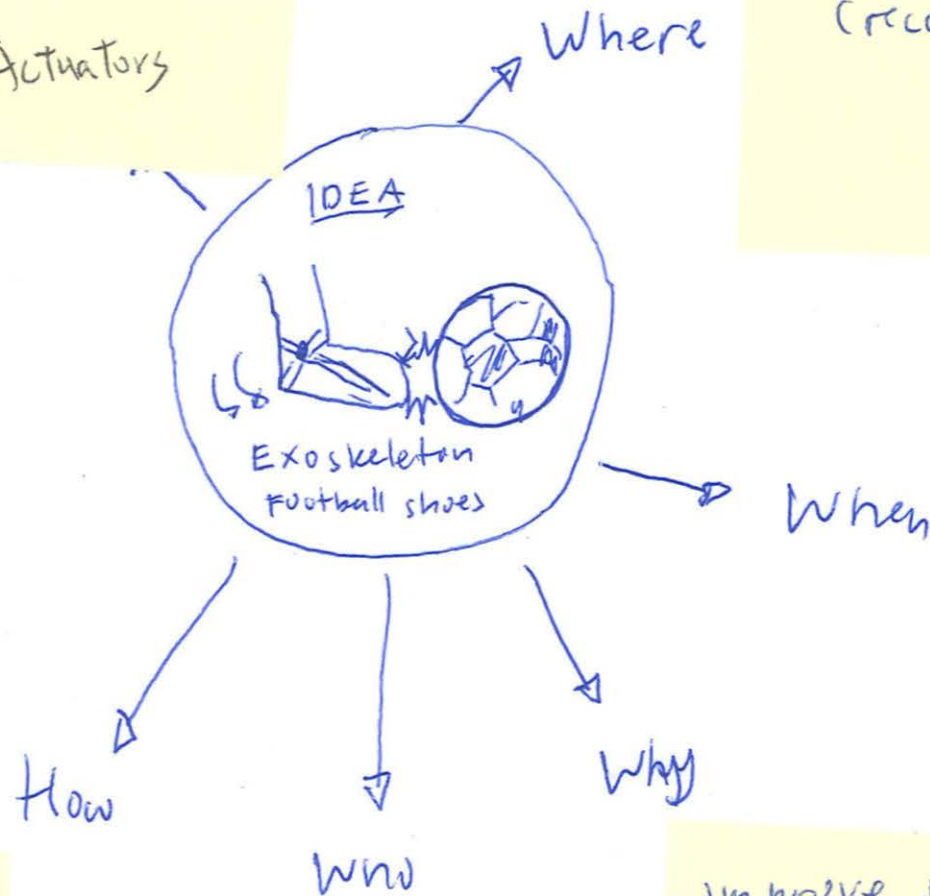

• Training ground

• Sprint

• Patient Centre (recovery)

Upgrade ...

Do a predicted simulation and give visual instruction to player where to kick the ball

training session

• Player wear the shoes

• they do training

• Coach assess their training & technique

• Soccer Player

• Soccer enthusiast

• Injured player

• Improve their skills

& Recovery
