

1. Exploration

Heart beat < music create >

Breathing meditation app

Exoskeleton to mirror body exercise

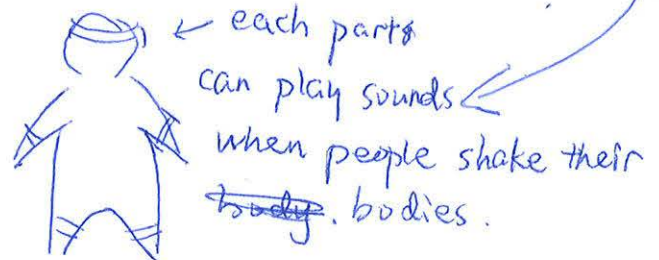

Wearable to check body form when playing golf

Swimming breathing ~~feeling~~ tracking system

Learn music instrument. ~~physically~~ ~~wearables~~ (detect gesture & touch).

Sitting position reminder (prevent from crossing legs)

~~wearable music instru~~

② ~~Inter~~ Inter-corporeal & High level of human control design.

- Cycling Collaborative Race

Collaborative sport.
like "tug of war."

↳ pull or break
str collectively
to reveal a prize

↳ can combine physical device
and virtual environment

- 2 players ^{play} ~~play~~ martial arts ^{movements} ~~together~~.

in a distance to fight with each other virtually

- Play piano but only on one hand,
so the other person could play the other hand

- ~~one player use brain~~
~~to control the instructions, another~~
~~player~~ 2 ^{players.} ~~people together.~~

to make a meal together!
each one could only realise
certain tasks.

Action ..

between
body

~~Fitness Trainer~~ your
Computer-controlled muscle.
Follow Fitness Trainer's
your.
Movement.

~~Collaborative Robots~~
~~for surgery~~.

Forced wake-up service
Robot.

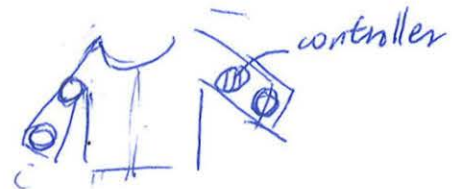

posture correction device

↳ ~~use~~ can be used in learning, general daily issue exercise

A training suit correct your posture

↓
make it collaborative by
wakeup by someone else

High level
Computer control.
